

# MAKE A DIFFERENCE DAY

NATIONAL DAY OF DOING GOOD

## **Make A Difference Day**

**October 28, 2017**

Make a Difference Day is one of the largest annual single-days of service nationwide. Every year, volunteers nationwide unite together on the fourth Saturday in October with a united mission; to improve and impact the lives of others through dedicated community service projects.

This year, families, neighbors, individuals as well as businesses and nonprofit organizations will come together to improve their communities on Saturday, October 28.

The State Office of Volunteerism would like to share what outreach opportunities your program is offering on this day of service. Please send your volunteer activity to the email address below so your information can be shared with others.
